```html
<form class="form-horizontal" ng-controller="registerCtrl as rc">
  <div class="form-group">
    <label class="control-label col-sm-2">Countries:</label>
    <div class="col-sm-4">
      <select class="form-control"
      ng-model="rc.selectedCountry"
      ng-options="country.name for country in rc.countries"></select>
    </div>
  </div>
</form>
```

```javascript
(function(){
    function registerSvc(){
        this.getCountries=function(){
            return [
                {"name":"India","code":"IN"},
                {"name":"United States","code":"US"}
            ];
        };
    }
    angular.module("register")
    .service("registerSvc",[registerSvc]);
})();
```

```javascript
(function () {

    function registerCtrl(registerSvc) {
        var vm= this;
        this.countries = registerSvc.getCountries();
    }

    angular.module("register")
        .controller("registerCtrl", ["registerSvc",registerCtrl]);

})();
```
